SUMMARY

Development Agreement – Student Housing Nova Scotia, on Hillside Ave.

This RFD is intended for COW to consider the recommendation from the Planning Advisory Committee (PAC) regarding the proposed development agreement for Student Housing Nova Scotia's (non-profit housing provider) request to construct a 12-unit residential building, three stories in height, located on vacant land, between two existing multi-unit buildings on Hillside Ave.

There are no financial implications on the Town and Staff consider the application consistent with the applicable policies of the Municipal Planning Strategy (MPS) and recommends this be forwarded to a Public Hearing.

PAC Motion (April 9, 2026)

THAT PLANNING ADVISORY COMMITTEE PROVIDES A POSITIVE RECOMMENDATION TO COUNCIL REGARDING THE DRAFT DEVELOPMENT AGREEMENT FOR THE SUBJECT PROPERTIES AT PID 55456875 AND A PORTION OF PID 55273908 AND THAT THE ATTACHED DRAFT DEVELOPMENT AGREEMENT BE FORWARDED TO COUNCIL FOR INITIAL CONSIDERATION

COW Motion (May 5, 2026):

THAT COMMITTEE OF THE WHOLE RECOMMEND THAT THE DEVELOPMENT AGREEMENT FOR STUDENT HOUSING NOVA SCOTIA LOCATED ON HILLSIDE AVE (PIDs 55456875 55273908) BE GIVEN FIRST READING AND PUBLIC HEARING SCHEDULED.

5) DISCUSSION

Background:

Fathom Studios applied on behalf of Student Housing Nova Scotia to construct a 12-unit residential building, three stories in height, located on vacant land, between two existing multi-unit buildings on Hillside Ave. A public information meeting helped shape an outcome that considered the neighbourhood by minimizing driveways, hiding parking in the rear, and preserving existing trees.

The applicants are permitted to build a multi-unit building on the property under the current R4 zoning. The Development Agreement is required because the proposed design is slightly over the hard surface coverage limit, and the building has too many units to be permitted through an as-of-right permit application or Site Plan Approval application.

The proposed 2026 Land Use Bylaw would not require a Development Agreement for this proposal and could permit this building through an as-of-right permit application, or a Site Plan Approval application including a Design Review Working Group consideration.

Contributors:

The proposed building is an intentionally designed step-down in scale and density between the surrounding and adjacent properties. There are multi-unit buildings on either side of this site, and the proposed 3 storey building helps to transition this street from the tallest four storey building (south) to the lower density 1-2 storey homes (further north) by filling the space in between with a building that has a height in between.

Process

This application went to the Planning Advisory Committee on April 9, 2026, and received a positive recommendation. Please see that report for additional planning context, renderings and information.

On May 5, 2026, Committee of the Whole gave initial consideration to the draft development agreement. The PAC report and draft development are attached to this updated report which was presented at the Committee of the Whole meeting.

At this Public Hearing, members of the public have the opportunity to provide feedback on the proposed development, directly to Municipal Council. Council is scheduled to consider approving the development agreement by giving it Second Reading at the Municipal Council meeting immediately following this Public Hearing. If approved, a Notice of Passing will be published on the Municipal website and social media, at which time a 14-day appeal period becomes effective.

Department: Committee of the Whole

Introductions of new committee members and new supporting staff were done. – Welcome to Tracey Read as our new member!

Development Agreement Application: DA-2026-001 Hillside Avenue - Student

Housing Nova Scotia

Fathom Studio has submitted an application on behalf of Student Housing Nova Scotia to construct a new 12-unit building on Hillside.

- The building plan was presented.
- A planting buffer is proposed along all four sides of the property.
- Previous questions regarding parking and traffic control were addressed in the report.
- Stormwater management for the property is expected to be straightforward, as existing infrastructure is available for connection.
- Feedback from the Public Information Meeting indicated a desire to preserve street trees; the building plan has been revised to retain two additional trees.
